E3, London ◉

I am a highly motivated Frontend Engineer who is passionate about creating rich user interfaces and interactive web applications. I strongly believe in the importance of writing clean code that is easy to test, maintain and reuse.

Work experience

Since June 2020

Frontend Engineer OVO London, United Kingdom

• Developing web features using React, TypeScript, RxJS, Redux.
• Developing Native features for iOS and Android using React Native, TypeScript, RxJS, Redux.
• Working in a cross-functional team, contributing to Product Design, and participating to User Research and Usability Analysis.
• Implementing the internal Design System and ensuring cross-browser compatibility and responsive design for all devices and screens.

From March 2020 to June 2020

Frontend Engineer Secret Escapes London

• Translation of interaction and visual designs into production quality front-end experiences, using Typescript, React, Apollo and GraphQL.
• Helping other developers adopt modern and lean front end engineering practises.
• Optimisation of javascript build, test and deploy cycles to ensure maximum page load and runtime performance.

From June 2019 to February 2020

Frontend Developer Noble London, United Kingdom

• Develop new user-facing features both for web-app and Electron applications using JavaScript, React, Redux and Apollo.
• Migrate the codebase from class based to functional components with React Hooks.
• Migrate style libraries from global SCSS/Bootstrap to a modern and modular style architecture using CSS Modules and CSS-in-JS.
• Build reusable code and libraries for future use.
• Ensure the technical feasibility of UI/UX designs.
• Promoted to Mid-Level Developer after 3 months of joining.

From November 2018 to June 2019

Junior Developer London Borough of Hackney London, United Kingdom

• Developed frontend features using Angular 7, SCSS and TypeScript.
• New features to adhere to the GOV.UK Design System standards.
• Test Driven Development of RESTful APIs endpoints using C# .NET Core 2.1.
• Worked with different stakeholders and presented demos and products to large audience.
